

TELEGRAPHIC.

WINNIPEG, July 15, '97.
Cardinal Taschereau is reported to be dying.
The Canadian rifle team have arrived at Bisley.
The returning jubilee troops have arrived at Quebec.
Turkey has formed a defensive alliance with Roumania.
Baron Comoy, president of the Henley regatta, is dead.
Nearly all the coal miners in Illinois have joined the strike.
Canadian mariners are making a good showing at Bisley.
Peterson, Tate & Co. have purchased the Beaver Line steamers.
Minnesota State board refused to pardon the young Chamberlain, ex-M. P. and Quaker printer, is dead.
It is said that fears of a general uprising in India are groundless.
A page inscribed with sayings of Christ has been discovered in Egypt.
It is reported that coal mine owners will replace strikers by military.
A man named Magnusson drowned himself in the Red River at Selkirk.
Turkey shows no inclination to act upon the peace demands of the powers.
Premier Laurier has accepted President Faure's invitation to visit France.
A fight occurred at Canada between Red troops and Bash-Basouks.
It is reported that an alliance is being arranged between Russia and China.
The Winnipeg four were beaten to day by the Oxford crew at the Henley regatta.
Jealousy caused a young man at Vancouver to kill his sweetheart and himself.
It is said that the preferential clause in the Canadian tariff is to be abandoned.
Sir Wilfrid Laurier and the other colonial premiers visited Mr. Gladstone at Hawarden.
Word was received that Andree expects to start to day on his balloon trip to the North Pole.
Reports of Finnish cruelty and persecution of Armenians have been received at Paris.
The victorious highlanders were given a magnificent reception at Toronto on their return.
Mowat has appointed an agent to enforce alien labor law against the United States citizens.
It is rumored at Ottawa that all civil servants over 60 years of age are to be superannuated.
The remains of Ben Wrede, a Vancouver prospector, were found by Indians in Omicquia district.
Reports from Pittsburg are that several more mines have closed and that strikers are very determined.
Davies says that Canadians cannot afford to make further concessions to the United States in Behring sea.
Edman Paaka is en route to Domokos and everything indicates a renewal of hostilities on the part of Turkey.
Great Britain, Russia and Austria are said to have agreed upon a plan of operations against Turkey.
It is reported that the United States will land an armed force and raise the stars and stripes in Hawaii. Japan is still aggressive.
The Winnipeg four defeated the Utrecht crew in the first heat for the Steward's cup at the Henley regatta. Time 7 minutes 47 seconds.

TO-DAY'S TRAIN.

One car of lumber.
One car of salt.
One car of sugar.
One car of merchandise.
One car of flour.
One car for various parties.
The names of the parties to whom the different cars are consigned could not be ascertained.

LOCAL.

Trains left Calgary on time.
J. GAINER of South Edmonton is purchasing live hogs for shipment to Kootenay.
R. WYNNE, license commissioner for Red Deer district, was in town on Tuesday.
The new bicycle raffled on Monday night at the Queen's hotel was won by Wm. Short.
CONSTRUCTION on the Crow's Nest Pass railway was expected to commence about July 15th.
Rev. FATHER LESTANGE, late of Calgary, left on Monday for his new mission field at Onia lake.
W. J. CHISHOLM, late principal of the public school in Regina, has been appointed inspector of Indian agencies and Indian schools.
W. S. ROBERTSON and family, with a number of friends, went out to Cooking lake on Wednesday on a camping and boating holiday.
W. L. FOOTE, ledger keeper of the Imperial bank here, who has been away at Rat Portage on his holidays, is expected in on to-night's train.
The Regina Standard comes to hand this week enlarged and improved, a forcible proof of its constantly increasing and well deserved popularity and prosperity.
The board of license commissioners for district No. 7 at South Edmonton on Tuesday and Wednesday to consider the applications of Messrs. Howard and Millette for hotel license. Mr. Howard's application for license for the Raymond hotel was granted on Tuesday but that of Mr. Millette for the Ontario house was refused on the ground that the license was not necessary in the opinion of the commission.

The Winnipeg Free Press of the 7th inst. circulates the following interesting news: "A very quiet wedding was consummated this morning at 10.30 at the residence of the bride's parents, corner of Aikins and Elbow street, in the presence of a few of the most intimate friends, when Miss second daughter of Mr. and Mrs. James Braden, was united in the holy bond of matrimony to Kenneth W. Mackenzie, principal of Edmonton public school. After partaking of lunch the happy couple left by the 12.40 train for eastern cities. Mr. and Mrs. Mackenzie expect to spend three or four weeks visiting in the east, when they will return and take up their residence in Edmonton, Alta."

MR. AND MRS. E. STARRS and Mrs. Noble, of Medicine Hat, are visiting Mrs. Hanna of this town.
The supposed murderer of the Indian woman at Stony Plain is being hunted for by the police, as we go to press, in the bluffs below the town. He is thought to be hiding there.
JOHN A. SMITH of Eganville, Ont., who is making a pleasure trip through the west, arrived on last train. Mr. and Mrs. P. L. McNamara were visiting friends in Eganville before Mr. Smith's departure for the west.
BEFORE Geo. W. Gairdner, J. P., five German farmers from Stony Plain were found guilty of neglecting to perform statute labor and fined twenty-five cents and costs. This was the first case tried under this ordinance and they were leniently dealt with.
THE BULLETIN has received a copy of "Twenty years on the Saskatchewan," by the Rev. Canon Newton. The author is well known among us for his intelligence and zeal, as a veteran clergyman of the church of England, and we hope the book will find many appreciative readers.
W. JOHNSTONE WALKER leaves to-morrow for a business and pleasure trip to the old country. He intends to go right through and expects to return about the end of September. During his trip Mr. Walker will purchase a large quantity of the best English made goods for sale in his store here.
A HAIL storm passed over the district lying to the north of Morinville and the Sturgeon river on Monday last. The out skirts of the storm touched the settlements along the Sturgeon but without doing any damage, and although the storm appeared to be heavier in the vicinity of Egg lake no damage is reported as yet from that quarter.
THE Winnipeg excursion commences to-morrow and a large number of excursionists will go down from here. Among those who intend leaving in the morning are: Mr. and Mrs. Jas. Goodridge, Mr. and Mrs. Jas. Ross, Mr. and Mrs. F. Jackson, Mrs. Satter and children, Miss Woodward, Mrs. John E. Grant, and Messrs. J. Walker, John Brown, A. B. McCleughan, and others.
TREASURY payments on the different reserves in this district commence this week. Staff-Sergeant Weathering and Const. Rockwell left on Tuesday for Stony Plain to reserve to be present during the payment of treaty. Insp. Howard and party also left for Saddle Lake. Dr. Ayles went with him to inspect the Indians there. Dr. Harrison went to White Lake on a tour of inspection.
A BRANCH from a white currant bush from the garden of Alex. Taylor, heavily laden with the fully formed and dead ripe fruit, was laid on our table on Tuesday. Mr. Taylor states that the yield of small fruits this year promises to be fully compensated for previous years during his lengthy residence in this district. He has been forced to prop up all his fruit bearing bushes to prevent their breaking with the weight of their yield.
We have been asked to inform the public that in all suspected cases of contagious diseases, such as glanders among horses, tuberculosis and lumpy jaw among cattle, scab among sheep, or hog cholera, the nearest mounted police constable should be at once notified, when the necessary steps will be taken to prevent spread of the disease. This procedure will save considerable time, as all such cases now reported to the department of agriculture are referred to the North-West Mounted Police for investigation and action.
MURDOCK SUTHERLAND and Charlie Barber, an early Calgary miner, arrived on Monday from a long prospecting trip through the mountains in the vicinity of the Jasper Pass. Sutherland and another companion were trapping and trading during the winter with the Indians near the Pass and after the spring opened he and Charlie Barber went on a long prospect into the almost unexplored regions of the Smokey River. The trip was one fraught with hardships but they were fully compensated them for their labors, though they are naturally somewhat reticent about making public the exact results. They with D. E. Noyes are preparing to start back immediately and will take a large supply of provisions to last them some time.
This much debated question of the market site is settled for the present and probably for an indefinite time. The offer of the town to Mr. Heimick was not accepted by him as he did not consider the proffered sum a fair price for the property and other advantages which the town would acquire, as stated in his letter, which appears in the report of the council meeting in another column. Mr. Heimick, therefore, refused the offer of the town and made a new offer, the principal features of which were the addition of another \$1000 to the price and the stipulation that the town should pay its own costs in the appeal suit which it lately won at Regina. This offer was immediately and unanimously refused, and the matter, therefore, remains in the condition in which it was before any negotiations were entered into. It was the intention and desire of the council, as stated last night, to get the matter in such a position that the ratepayers could decide it themselves by their votes, but this is now impossible as the offer which was made by the town with that end in view was refused and the question is therefore finally dropped.
A POLICE patrol composed of Insp. Snyder and constables McLelland and Smith, with W. P. Dyke as guide and interpreter, leaves to-morrow on an extended patrol of the northern country in the region of the Jasper Pass and Peace river. They take with them four saddles and about eight pack horses on which the patrol's first objective point will be the Jasper Pass and the district in its immediate vicinity, and from there they will patrol north along the eastern slope of the Rockies to Sturgeon lake, otherwise known as Little Slave lake. From this lake the party goes to Grand Prairie or Duvegan, and from there northward to Peace river which they will probably strike at Fort St. John. From Fort St. John the patrol goes down the river to Peace river landing and from there they journey to Lesser Slave lake and then turn south and homeward, arriving by way of Lac la Nonne. The purpose of the trip is to ascertain the truth of many reports which have been brought out of the north as to the amount of lawlessness and vice rampant in that region. The patrol will be of indefinite length, and it will probably be late in the fall before the party returns.

ANOTHER serious bicycle accident occurred last night when Mrs. McCormick, wife of M. A. McCormick, accountant at the Hudson's Bay fort here, while bicycling was thrown from her machine and broke her arm in much the same manner as G. A. Voyer did about a month ago. Mrs. McCormick was taken home and medical assistance immediately called.
FUR SALES.
The fur sales since last issue are the largest on record. The following is a complete list: D. Cadzow to J. S. Segers, \$401.10; A. Green to J. S. Segers, \$61.50; Robert Logan to A. N. Rose for Ullman & Co., \$80.00; Brick Bros. to R. Secord, \$10,888.88; Colin Fraser to R. Secord, \$13,777.88; Total sales for the three days since last issue, \$25,211.48. Total sales for the last ten days, \$34,028.00.
The different bids on Colin Fraser's lot were as follows: \$13,777.00, \$13,567.75, \$12,698.28, \$12,563.63, \$12,300.05.
This practically winds up the fur business for this season as all of the large lots are in and the traders are returning with their goods and preparing for another winter's trade.
APPARENTLY A MURDER.
Word was received by the police yesterday to the effect that a murder had been committed on the Indian Reserve at Stony Plain, the victim being a squaw from the reserve.
On receipt of the information Const. Harding and interpreter Couture were sent out to investigate the truth of the report. They left last evening and on arriving at the scene of the supposed tragedy found that the report was unfortunately only too true.
The body of the Indian woman was found lying in the rear of an old shack. She had apparently been dead a number of hours when found. Her long hair was wound around her throat as though some one had done it with the intention of strangling her, while her throat and neck bore other signs of violence, proving almost beyond a doubt that the unfortunate woman had been murdered. Harding remained at the reserve while the interpreter brought the word to town and Dr. Braithwaite and another detachment of police left to-day for the scene. A post mortem examination will be held to-night by Dr. Braithwaite to ascertain the exact cause of death.
The murder, if it turns out to be such, is supposed to have been committed by an Indian who was living with the woman. It is not yet known whether he has fled to evade arrest or not, as according to the last word received in town his whereabouts had not yet been ascertained.
I. O. G. T. ELOCUTIONARY CONTEST.
The fourth silver medal contest under the auspices of the I. O. G. T. was held on Tuesday evening.
The contestants, Misses. Millie Evans, Emma McCallum, Nita Dorais and Bertie McCauley, acquitted themselves with credit. The judges Messrs. Boyle, D. S. McKenzie, and Rev. H. E. Gordon unanimously awarded the medal to Miss Nita Dorais, on the ground of "all round proficiency."
Thanks for the musical entertainment are due to Mrs. Walker, Mrs. Howe, Misses Thompson, Phillips and Clara Lauder, and Messrs. Houston, Hockley, Alex. McCauley and Whitcomb. Rev. Mr. Dyke presided.
The Winnipeg Nor-Wester: The late government was able to secure all the Galicians it wanted by paying an enterprising Austrian \$5 a head. But after a trail shipment it ceased to encourage them, being of opinion that quality is even more desirable than quantity. These people are without doubt almost the worst possible material that could be selected for nation building.

NORTHERN MAILS.

In view of the large number of traders now in town and the evidence of expansion of the northern trade which is everywhere apparent, the present would seem to be an opportune time to once again and still further urge upon the post office department the desirability and indeed the necessity of providing mail facilities to some extent throughout at least the nearer north. This trade is as yet chiefly within what is marked on the map as the district of Athabasca, but traders and prospectors have pushed out beyond those limits and are pushing out still farther this season than ever before, besides occupying more fully the region where they have already chiefly operated. Their numbers are increasing, they are taking out larger and still larger outfits, but still the greater part of the north country remains unoccupied. The goods which these people purchase have paid their share in customs and excise duties towards the revenues of the country. No expenditures are made by the government in that region on any account whatever, except the half dozen policemen who are now being located at certain points, so that whatever may be said as to government expenditures in the organized part of the Territories, there is no such expenditure in the north country, and therefore the usual reason given for refusing expenditures in the organized districts does not apply there. This is not a matter of interest to the traders so much as to those who supply them, who have a most direct interest in hearing what progress they are making during the winter and particularly advising them as to the value of furs as set by the great London fur sales. In case of an extraordinary drop in the price of furs in London at say the January sales the possibility of reaching the northern traders in time with the news might not only save them, but the men who supplied them, from loss if not bankruptcy. It is true that there are the ordinary chances of the trade, and that the traders knew the conditions before going in. But on the other hand it is the business of the government of the country in handling the mail service to give all classes of the community and all sections of the country a fair and reasonable share of the advantage of mail facilities. At present throughout the region which occupies nearly a sixth of the total area of Canada there is no government mail service whatever. It may be that the government disapproves of this northern country being opened up by the trader, the missionary and the prospector and that they grade to discharge the responsibilities which they have assumed. If that is the case they can certainly delay, but they cannot prevent development, as the trend of events for the past three or four years clearly shows. But it is not reasonable to suppose that any enlightened government can take such a view of the case.

Now that the authority of the law is being asserted in the north by the stationing of policemen at certain points the conditions are changed from what they were even a year ago. Although the police are only few in number they not less represent the authority of the government of Canada. In order that the authority of the government shall be exercised intelligently and safely it is necessary that there should be communication between these distant outposts and the centre of authority. This is of course admitted and will be granted. The expense that will enable them to communicate, if applied to the carriage of a general mail would serve the requirements of the whole community. The only difference would be that the expense would be on the police instead of on the post office department, but the country would have to bear it just the same, and the people would not get equal benefit. All parties interested in the northern trade should unite their forces and bring the matter before the post office department as strongly as possible so that if a mail is to be secured there would be public knowledge of the fact in plenty of time to be of benefit to all

parties interested, many of whom live at such great distances that they must know a very considerable time ahead that they can depend on a mail or it will not be much use to them.

In this connection it would be well to particularly press the claim for a weekly mail to the Landing. This is the meeting point in both summer and winter for all the northern trade. While the settlement itself does not amount to much it is quite as important as many other points that have mail facilities. But it is chiefly on account of its being the converging and diverging point of all the trade to the north that a mail is required. All summer long traders are there coming south with fur or going north with goods. Frequently they are stuck for transport coming in and for final supplies going out. In coming south the mail could bring word that they were on the way so that preparations could be made for them, and in going north they could depend on getting the very last news of the outside world before breaking away from civilization for a year. The total distance is 90 miles, twenty of which is already covered by a weekly mail service, so that only 70 miles additional would have to be covered, and under all the circumstances there is no doubt that the service would be performed at a very reasonable price.

It will be a great mistake for the post office authorities to look upon this question of mail service in the north from the point of view merely of receipts and expenditure. The government does not run the postal department as a means of raising revenue, but for the purpose of facilitating the transaction of the business of the country. While it is certainly desirable that receipts should be nearly as possible balance expenditures, that is not the main question. The real point is, to what extent will a certain expenditure on mail service tend to develop the production or trade of the country? Judged by this standard there is no part of the Dominion of Canada where an equal—and very moderate—expenditure on mail service will produce as beneficial and widespread results as in the Athabasca, Peace and Mackenzie river regions.

REPRESENTATION FOR THE COLONIES.

The Manchester Guardian says the Duke of Devonshire's recent hint that striking proposals were about to be launched by the secretary of state for the colonies, Joseph Chamberlain, refers to a scheme for a representation of the colonies in the House of Lords. This scheme, the Guardian adds, has already been approved at conferences held between Mr. Chamberlain and the colonial premiers.

A CONSERVATIVE LEGACY.

The expenditure and revenue statement for the year ending June 30th, was gazetted last Saturday. It is very satisfactory indeed. The revenue shows the large increase of \$1,213,000, and the expenditure an increase of about \$68,000. The expenditure is not all in yet, but when it is there will probably be a small surplus, though it is possible there may be a small deficit. The net debt is \$254,581,000, an increase during the year of \$4,158,000. The expenditure on consolidated fund includes two sessions of parliament, instead of one, as usual, and the debt increase is due to obligations incurred when Premier Laurier took office. There is a decrease in the expenditure on capital account of \$575,000. The comparative statement of monies received by the various branches is as follows:

	1896.	1897.
Customs,	\$10,681,139	\$18,318,363
Excise,	7,865,081	9,148,015
Postoffice,	2,935,187	3,226,482
P. W. & Railways,	3,586,070	3,511,267
Miscellaneous,	1,788,148	1,667,153
Total,	\$35,655,775	\$36,772,180
Expenditure,	\$30,551,294.02	\$31,237,458.47

THE RECIPROCAL TARIFF.

Ottawa, July 9.—The regulations in regard to the reciprocal tariff of Canada were issued to-day by the minister of customs. Persons making entries under the reciprocal tariff, will be required to furnish a separate invoice of the articles entitled to such entry, with a sworn declaration from the exporter, or his agent, made before a notary public, commissioner, chief municipal officer, British consul or before the president or secretary of a chamber of commerce, as to the origin and value of the goods. Where the invoices are made out at prices below a fair market value for consumption in the country of exportation, the invoices must show in a separate column, or otherwise by addition thereto, such fair market value.

The arrangement in connection with the Australian steamship service, by which vessels will call regularly at a New Zealand port, goes into effect next month.

THE GLOBE ON RAILWAY DISCRIMINATION.

Toronto, July 7.—The Globe on railway discrimination says: Discriminations increase the value of American farms and lessen the value of farms in the Dominion. They build up agricultural industry in a foreign country commercially hostile as far as it knows how to be, while they not only depress our own agriculture with the burdens of generous subvention, but impose discrimination of freight rates on its products.

The departure of a number of Canadian cattle buyers to Chicago is another illustration of the freight discriminations.

LESSER SLAVE LAKE.

The present is a favorable season for crops at Lesser Slave lake as elsewhere throughout the Northwest, but owing to there always having been an abundance of fish and game in that district no attempt has yet been made to farm on a large scale. The people have a good many horses, cattle and hogs; the former pawing their living all winter as do those of Peace River. Fish are still sufficient at Lesser Slave lake, but are said to be decreasing noticeably. Rabbits and lynx were plentiful last winter and the Indians did well.

Although the water was high in both the Peace and the Athabasca last spring, it was very low in Lesser Slave lake which lies between the two. The water of the Athabasca, however, backed up the Slave river so that the rapids in its lower course were scarcely noticeable.

Three policemen and an interpreter have been sent to Slave lake to take care of parties who set out poison or bush fires, or who trade whiskey. Owing chiefly to an idea that the police are being sent in to enforce the game laws against the Indians, the Indians are said to object to their presence. But it is not expected that their objections will take serious shape if the game laws are not enforced. This is a time when the utmost care is needed in establishing the authority of law in the vast new country of the north. Matters have reached a pitch when the assertion of authority on the part of the government is absolutely necessary throughout the Mackenzie basin. It is to be hoped that the mistakes which proceeded '69 and '85 will not be repeated and that the successful tactics of '74 to '78 will be intelligently copied.

Marshall's Teas.

EDNA.

The Rev. Mr. Whiteside is away at conference.

Rev. Mr. Gallop is announced to visit this district the last Sunday in the month.

Mr. Swan, Sr., is in the hospital. His mouth and throat are affected.

Miss McNeill's term at the Beaver Creek school has expired. The school is now closed.

Our advice to the bachelors is, bring your "boss" home, it is more profitable than to buy your milk by the cent.

At the Limestone lake picnic on the first Mr. McCaul's horse broke a leg by stepping into a badger hole.

Beaver Creek picnic, held at Mr. Riley's, was a jolly affair.

STONY PLAIN.

D. Brox, road overseer, will start the statute labor work in this district on Monday, the 19th instant. With the building of fences and opening up of road allowances the travelling public are gradually being compelled to forsake the time worn trails and take to the at present less comfortable newly opened roadways.

Another sign of the advance of settlement and civilization and all that appertains thereto, is the forming of the Spruce Grove settlement into a school district.

Crops are very promising and settlers of the Plain are sanguine of the season's yield. Both grain and roots are looking splendid and if the weather continues for another month the yield will be larger and better in quality than any previous season's yield since the settlement of the Plain. The hail which was reported to have fallen along the Sturgeon, last Monday, did not show itself in this locality.

IN WONDERFUL KLONDIKE.

A despatch from Seattle, Wash., of the 7th inst, says: The steamer Queen arrived from Alaska, making the voyage in three days, the quickest on record. She brings the latest news from the Yukon and Klondike gold fields, which is most encouraging in character, and more confirmative than previous reports of the wonderful discoveries. In the Klondike diggings it is said that as high as \$500 and even \$800 had been taken out from a pan of dirt, surpassing all records made last fall, when from \$200 to \$300 was produced from a pan.

The yield surpasses anything ever recorded in the history of gold mining on this or any other continent. It is estimated that millions will be brought out this fall. The Klondike fever is extending all over south-eastern Alaska and hundreds already well provided with good paying mines and business are preparing to pull up and go to the Klondike.

The Klondike is a tributary of the Yukon which flows into the big river above Forty Mile. It is in British territory. The first strikes were made there about two years ago, and they were so rich that the stories of them which reached the mining settlements at Forty Mile and Circle City were ridiculed. The result was that throughout the summer there was no rush to the wonderful new diggings. Men came into Circle City or Forty Mile and announced that they had taken \$40, \$50 or even \$100 from a pan of dirt on the Klondike, and the only result was to raise a laugh. The men who told the stories laughed, too, took their supplies and went back. But their laugh was best, for they told the truth, and those who wouldn't believe it only left them the more time to pick the best for themselves.

In the fall when the camps filled up with the men from the other diggings, but no one came in from the Klondike, it began to dawn on Circle City and Forty Mile that perhaps, after all, there was truth in the wonderful stories. Then began a great rush for Klondike. It was like the old days of placer mining in California, and the whole stream was staked out in less than a week. Then the Eldorado, a little branch of the Klondike, was prospected, and there the rich Berry claims are located from one of which \$240 was taken from one pan of dirt.

The world has never seen such placer mines as those of the Klondike. California in its very best days was nothing like it. Placer miners will work claims with great energy that pay 10 cents a pan, but claims on the Klondike all last summer averaged a dollar a pan. Miners' wages in the Yukon country have been \$10 a day before the Klondike strikes. Last summer they rose to an ounce a day, and even more. They can't get the dust very clean by their primitive methods, so an ounce up there is worth only about \$17.50 or \$18, but that is a big increase on \$10.

The rush into the Klondike diggings this year is the greatest Alaska has ever seen. Thousands of men who know absolutely nothing about placer mining went over the Chilkoot Pass and down the Yukon. Most of them are bound to fail. The diggings were all staked out long ago, and it is a game that men without experience cannot play. They're got to get experience in some other place.

LOST.
One bay two-year-old colt, two hind and off front leg white. A reward of \$5.00 will be paid on the delivery of the horse to Al. Brown or to C. WHITFORD.

PEACE RIVER CROSSING.

At the junction of the Smoky with the Peace river, and the point at which the cart road from Lesser Slave lake reaches the south bank of Peace river, is becoming a considerable agricultural settlement, thanks greatly to the exertions of Rev. J. Gough Brick, who a number of years ago established a church of England mission and started a farm on the flat a few miles above the crossing. There are now seven fair sized farms under cultivation there besides a number of small patches worked by Indians and half breeds. For several seasons past the weather has been too dry for successful crops. The year before last was a total failure and last year gave a scanty return. To overcome this difficulty permanently Messrs. T. A. Brick, C. St. Germain and McFarlane & Harris have dug irrigation ditches, which brings water from creeks flowing from the upland on to their lands. In St. Germain's case he had no creek, but dug a well which overflowed and now irrigates his field. This season, however, there has been ample rain, and wheat was two feet in height and looking well on June 20th.

The past winter was not severe at the crossing and owing to the early disappearance of the snow a poor spring hunt was made by the Indians. This made the traders return lighter than was expected.

Very little gold mining was done on the Peace river last season, the miners turning their attention rather to trapping, trading and farming.

Moose were plentiful last winter throughout Peace river and consequently there was no starvation amongst the Indians as there was in the Athabasca region.

Thomas Bellamy

By-Law No. 141.

A By-Law respecting the cost of certain local improvements made during the current year.

Whereas, under and in pursuance of the provisions of "The Municipal Ordinance," Part 7, Section 5, a petition duly signed, was presented to the Municipal Council of the Municipality of the Town of Edmonton, asking that there be made as a local improvement, a plank sidewalk, six feet wide, with the usual crossings, upon the east side of Nansay Avenue, one of the public streets of the Municipality, from the south-west corner of Lot 23, in Block 3, in River Lot 12, Edmonton, to the north-west corner of Lot 21, in Block 32, in the same River Lot.

And whereas, the said local improvement has been made, the expenditure therefor having been met by means of temporary advances or loans effected in pursuance of "The Municipal Ordinance," Part 7, Section 5, sub-section (d).

And whereas, in order to provide means for the repaying of the said temporary advances or loans, it is now necessary to ascertain what portion, if any, of the cost of the said local improvement, should be borne by the Municipality at large, and what is the probable life of the said local improvement, and to provide for the assessment by way of special frontage assessment of the cost or portion of the cost of the said local improvement, upon the lands fronting on the street or place whereon, or wherein the said local improvement has been made, and for the levying of such cost or portion thereof by a special rate upon such lands, and for regulating the time or times, and manner in which the rates for the said local improvement are to be paid.

Therefore, the Mayor and Council of the Municipality of the Town of Edmonton, in council assembled, enact as follows:

1. The Standing Committee of the Council on Public Works shall forthwith consider the said petition, and the resolutions of the Council passed in respect thereof, and the work actually done in pursuance thereof, and the accounts of the expenditure made therefor, and all the other matters necessary to enable the said committee to make a report to the Council which shall set forth and certify:

(a) The probable lifetime of the said improvement.
(b) The actual cost of the said improvement.
(c) The portion (if any) of the cost to be borne by the Municipality at large.
(d) The portion of the cost to be provided by special frontage assessment.
(e) The frontage of the property upon which the special frontage assessment is to be levied, stated in lineal feet.
(f) The rates of special frontage assessment per foot frontage.
(g) The amount chargeable to each lot or parcel of land assessed according to the rate per foot frontage.
(h) The value of the land chargeable with the special frontage rate (exclusive of all improvements thereon).

2. The Council shall forthwith consider the said report and adopt the same, with such amendments, if any, as they shall deem proper, and thereupon, the several properties affected are hereby declared to be assessed, and the assessor of the Municipality is hereby directed to assess the same in accordance with the terms of the report so adopted.

3. The time and manner of payment of the amount of the assessment, shall be as follows: The amount of the assessment shall be payable in such number of equal consecutive annual payments as shall correspond with the number of years which shall have been certified to be the probable lifetime of the improvement, together with a further equal annual sum, such that the total annual payment shall be sufficient to cover the annual interest on the principal, at the rate of six per cent, payable half yearly, and to form a sinking fund for the payment of the principal, based on a calculation of interest being received thereon at the rate of five per cent. yearly.

4. As soon as the Council shall have appointed a time and place when and where the Council will sit as a Court of Revision for the confirmation of the special frontage assessment so made (which the Council shall forthwith do by resolution) the assessor of the Municipality shall give notice to all parties interested, in pursuance of the Municipal Ordinance, Part 7, Section 10, which notice may be in the form or to the effect of Schedule A. to this By-Law.

Done and passed in Council this 26th day of June, A. D. 1897.

[Sgd] JOHN A. McDOUGALL, Mayor.

[L. S.] [Sgd] A. G. RANDALL, Clerk.

VERMILION.

A. L. Brick, of Brick Bros. who arrived from Peace River last week, spent the winter at Vermilion about 300 miles down stream from Peace River crossing and about 200 miles further north, the latitude being about 51 1/2, 400 miles north of Edmonton, or 750 miles north of the international boundary.

The settlement at Vermilion includes some twelve or fourteen farms of which the two largest belong to the brothers, E. J. and H. H. Lawrence, who originally came from the eastern townships of Quebec. The other settlers are chiefly retired servants of the Hudson's Bay Company. E. J. Lawrence has about 75 acres of crop and H. H. Lawrence about 100 acres. Each has a good stock of cattle, hogs and horses, with farm machinery as well. The missions of the Church of England and of the Roman Catholic church have farms, and also the Hudson's Bay Company. Wheat, barley and potatoes are the principal crops. Oats are also cultivated. The wheat crop of the settlement last season amounted to about 2,000 bushels, and the barley to about 3,000 and 1,000 bushels. The sample of both wheat and barley was good. The wheat is ground into flour for local sale and the barley is chiefly fed to stock. E. J. Lawrence has a steam grist mill. H. H. Lawrence has a water power mill, and the Roman Catholic mission, a wind mill. The mission is preparing to put in a water mill however, as the wind mill will not grind enough for the enlarged requirements of the mission. Mr. Brick bought 60 sacks of flour from E. J. Lawrence's mill last winter for trading purposes. It was equal to four X, although the mill has no smutter. H. H. Lawrence's mill has a smutter and is a good mill, but has not enough water to grind steadily. The Lawrence's make a large quantity of butter every year. Last season H. H. Lawrence killed a barley fed hog which dressed 432 pounds. The produce of the farms is disposed of at good prices to the H. B. C. and traders for local consumption. The farms of the settlement are along the river except one which is about five miles back of a lake. The country north of the river at Vermilion, for about 55 miles, very much resembles that north of the Saskatchewan at Edmonton, being mixed prairie and timber with rich black soil. Then a belt of wood 18 miles across is reached, and again a park country succeeds to the south bank of Hay River which puts into Great Slave lake. This kind of country is said to extend all the way up the Peace, at a distance back from the river, to Dunvegan about 300 miles.

The past winter was rather shorter and less severe than usual. The river did not close until Nov. 4th. The usual time is about October 25th. Snow did not come to stay until the end of November. The only severe weather was for a few days in January when the thermometer went down to 59 below. In the spring the snow went off about the 18th of April, which is earlier than usual, it generally lying until the first of May. The river broke on April 22nd, which is earlier than usual. It generally breaks about the first week of May. The river was exceptionally high this spring. Mr. Brick and party left Vermilion for Peace River crossing on May 31st and had to pole up stream nearly the whole of the 300 miles as the water was too far up the banks to allow of tracking. Sometimes they could only pole on one side and had to row on the other.

T. D. Wilson, at one time of Edmonton, is in charge of the H. B. Co. post at Vermilion. Vermilion is an important trading point as well as being suitable for farming, and both traders and settlers feel the need of mail communication very greatly. While the amount of matter to be carried might not pay in postage the cost of the service, there is no doubt that a regular service of four times a year would be of great material advantage to the development of the district both in trading and farming, and should receive the early attention of the post office department.

MARRIAGES.

MacKENZIE—BRADEN—In Winnipeg on Wednesday morning, the 7th inst. K. W. MacKenzie of this town to Miss Tena Braden, of Winnipeg.

YATES—BELL—On Tuesday July 13th, at the residence of Mrs. Young, Edmonton, by Pastor A. McDonald of South Edmonton assisted by Pastor C. B. Freeman of Edmonton. W. William Yates of Wimbledon, Alberta, and Miss Annie Bell of Edmonton.

COUNCIL MEETING.

The regular meeting of the town council was held last night in the council chamber, all councillors present.

After the routine work was disposed of the following business was transacted.

Communications were read from:

Sister Letellier, re donation to hospital.

Pr Heiminek & Co., (2) re market site.

P. Heiminek & Co., re Bird estate.

Pettition, re Fuller estate.

Gallagher—Jackson. That the petition of the Fuller estate asking for privilege to redeem certain lots in the said estate erroneously sold for taxes be granted.

Garipey—Fraser. That request of Sister Letellier, asking for the town to donate to the local general hospital the unused balance of the amount granted by the council towards the children's entertainment, being about \$80, be granted. Further that the hospital authorities be requested to name one of the wards "The Children's Victoria Jubilee Ward" in commemoration of the late celebration.

McLeod—Jackson. That the request of P. Heiminek, on behalf of the Bird estate, asking for privilege to redeem the lots of such estate, in portions, be not granted.

Mr. Heiminek's letter re the market site, refusing the offer made by the town, and substituting another offer, then came up for discussion:

The letter was as follows:

"Gentlemen: In reply to your letter of the 5th, instant please note that we have considered your offer and have come to the conclusion that the compensation of \$5,100 payable by the town, and \$1,000 by private subscriptions, for Block X, the lot adjoining the said block to the east, with all privileges, and according to the plans before you, is not ample. We, therefore, decline this offer. We have earnestly gone through the whole matter and will make the following reduced proposition, namely: Block X, lot to the east, streets according to plan—except same below the hill which is to be subject to proper survey by us—privileges as asked for in last letter, and the dropping of the appeal in the matter of P. Heiminek vs. the town, for the sum of \$6,100 payable by the town and the right of \$1,000 private subscription, as already promised. The town to pay their own costs in the matter of P. Heiminek vs. the town."

The matter was not discussed, but the following motion moved by Coun. Garipey and seconded by Coun. Hourston was immediately and unanimously carried:

"That communication from P. Heiminek be filed, and clerk be instructed to inform him that the council cannot consider his proposition."

The agreement with the Electric Light Co., having expired some time ago and a committee consisting of Couns. Hourston, Jackson and Garipey having been appointed to make a new contract, the committee then reported progress and submitted their proposed proposition.

After some little discussion the following motion was put.

Gallagher—Hourston. That the present contract with the Electric Light Co. be renewed for the balance of the year.

Mr. Heiminek, on behalf of the Bird estate, was then heard. He desired the town to extend the time for the estate to redeem their lots sold at tax sale for another year, and to grant the estate the privilege of redeeming the property lot by lot as they were able to dispose of such lots.

This request the council did not wish to grant as they did not care to establish what might easily become a very awkward precedent, and their former motion remained unaltered.

Out of the above matter arose the question of confirmation of tax sale of all the lands bought by the town at tax sale of 1896, and the solicitor was instructed to make application before the judge next presiding here, for an order confirming the tax sales of 1896, to the town.

The treasurer's report showing a surplus on hand was received and filed.

The dog pound problem was debated upon and it was decided to prepare a pound at once and have the by-law rigidly enforced.

The meeting then adjourned.

EDMONTON MILLING COMPANY LIMITED.

R. RITCHIE, Manager.

ORANGE PIC-NIC.

The orange lodges of South Edmonton and Fort Saskatchewan held their annual celebration at the latter place on Monday, July 12th. South Edmonton lodge crossed the river at the lower ferry about nine o'clock in the morning to the music of the fife and drum, and after being joined by the Edmonton members of the order proceeded to Fort Saskatchewan. At Bremner's hall they met the Fort Saskatchewan brethren and marched with them to the picnic ground. The picnic was held in the grove in rear of the police barracks, Fort Saskatchewan. Tables were arranged and dinner was served about 1 o'clock. A severe wind storm which brought clouds of dust and threatened rain, somewhat disarranged the proceedings and caused many of those attending to seek refuge in the Mansion house and have dinner there while the storm was blowing over. Fortunately the wind went down about two o'clock and the remainder of the afternoon was very pleasant. There was a good attendance of members of the order and their friends from all the district. The band of the mounted police was present and added greatly to the pleasure of the occasion by their excellent music. The fife and drums also did their part towards enlivening the proceedings. Staff-Sgt. Graham, worthy master of Fort Saskatchewan lodge, presided on the platform assisted by R. McKernan, worthy master of South Edmonton lodge, who opened the proceedings with a short address. He was followed by Rev. Mr. Bruce and Rev. Mr. Chegwin. When the speech making was ended tea was served to visitors from South Edmonton and Edmonton, who were the guests of the Fort Saskatchewan lodge, and at the end a procession was formed and marched back to Bremner's hall with flag flying and fife and drum reviving old memories in the most approved manner. South Edmonton lodge returned home by the south side of the river reaching there at a late hour. The picnic was a great success throughout.

TO THE YUKON.

B. Pilon, Israel Lamoureux, Louis Lamoureux, E. St. Jean and Mr. Verrault, of Fort Saskatchewan, left for the Yukon on Tuesday by way of the Landing and Mackenzie river. Mr. Pilon made the trip to the Yukon once before by the Mackenzie route, going down the Mackenzie to Peel's river H. B. fort, thence crossing the Rockies by the H. B. Co.'s portage to the head of the Porcupine, which is the most northerly branch of the Yukon. He followed this river down to its junction with the main river at the site of old Fort Yukon. He then went up the Yukon and Lewis rivers and came out by way of the Chilcot pass. On this trip the party will prospect for gold on the Mackenzie, about the mouth of the Nehani river, where Mr. Pilon found gold on his former trip. Their present intention is to winter at the mouth of or further up the next large stream which puts into the Mackenzie on the west side below the Nehani. If they do not strike anything good there they hope to be able to cross the Rockies next spring from the head of this river to the head of the Stewart branch of the Yukon. Mr. Pilon believes from information which he received from Indians during his former trip that this is possible. The Indians informing him that they had crossed the mountains to another river where white men were looking for gold. The party are well provisioned and their experiences will no doubt add greatly to the knowledge existing regarding the Mackenzie river region.

For Sale, Cheap.

A Sohmer & Co. (New York) Piano. One Ladies' English Side Saddle. Apply at BULLETIN Office.

ESTRAY. One brown and one bay heavy draft horse, both branded O-O on right shoulder. Brought from Calgary. One bay horse, heavy draft, branded J. P. on right shoulder. Ten dollars reward will be given for their recovery on delivery to 66-8. JOHN GRAHAM, Clover Bar.
